# MEGA SIGNAGES

Appearing your brand in a striking and clear way  
when suitable spaces are available for that in addition  
to the engineering designs in the open areas

# WRAPPING WORKS

Through many advertising methods, the market considers the advertisement of vehicles one of the most important, especially the presence of vehicles belonging to your brand, which shows your logo in a distinctive way through the continuous movement of the vehicle and watch it for the largest segment of the public as well as we pack many other materials with the best available materials

## 3D LETTERS

With using 3D System starting from aluminum profiles for channel letter named “3D-Profiles” and “3D-Edge Profile”, used in visual advertising. Channel letters, made by sign makers with a use of profiles from 3D System® company, are illuminated from inside of letters, most commonly with energy-efficient LED systems. Channel letters, made with a use of profiles from 3D System® company, are placed on buildings, halls, or other buildings of public use, making impressive illuminated advertisements, which increase recognition and prestige of companies.

# CLADDING WORKS

Packaging buildings with high-quality of aluminum composite panels is the best solution to change the look of the façade of your exhibition or building through designs that give distinction to the building and the entrance to your companies

# BACK LIGHTS

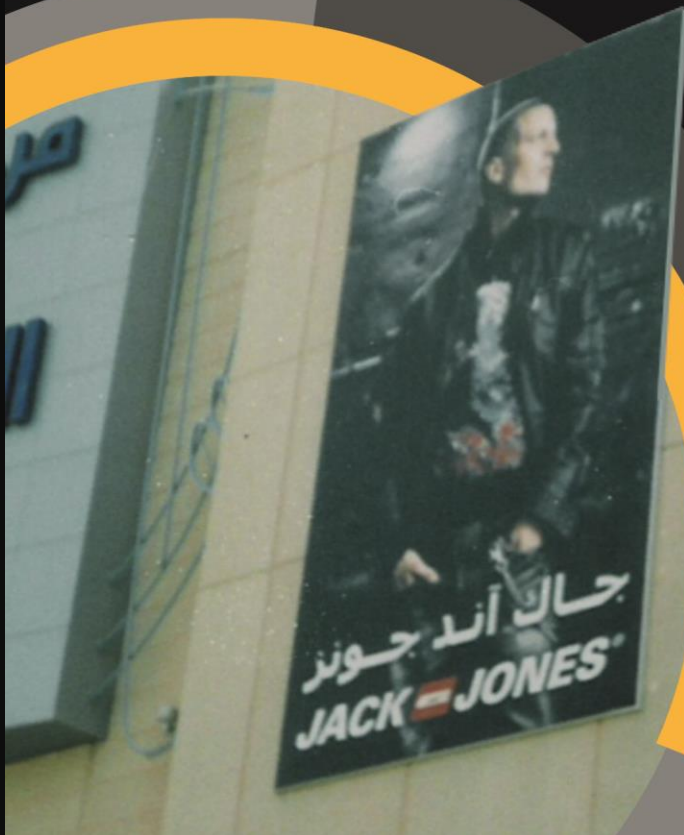

Lighted boxes are the most common advertisement in demand for its appropriate cost and clarity, and it is also possible through our professional designs to highlight the name of the company in a distinctive way in line with the development of advertising ideas and the requirements of the different market

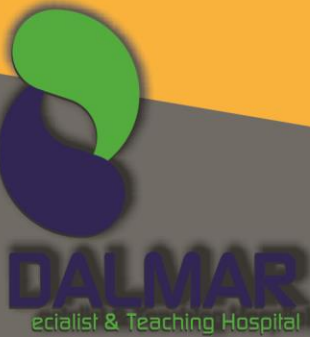

# WALL POSTERS

Indoor and outdoor advertising posters are an important part of marketing to appear in large brands, especially with a distinctive appearance.
